

2010 Tanner Street Utility Replacement Project

Project Update No. 6

October 25, 2010

Although they were rained out on Tuesday, PACT Construction was able to complete the sanitary sewer replacement and began installing the new sanitary sewer laterals to each of the properties along Tanner Street. For the week, they installed approximately 204 linear of new 8 inch diameter sanitary sewer main along Clement Street and Stiles Avenue and approximately 186 linear feet of 12 inch sanitary sewer main along Tanner Street. They also started work on connecting several residential properties along Stiles Avenue to the new sanitary sewer line and manhole.
