Commissioner Edward F. Borden, Jr.

Director of Public Affairs & Public Safety

Commissioner Jeffrey Stephen Kasko

Director of Revenue & Finance

July 21, 2009

Borough of Haddonfield

Camden County, New Jersey

To: Properties abutting Redman Avenue (from Avondale Ave to West End Ave)

Re: Planned Paving and Concrete Project

The Borough Commissioners have authorized the complete reconstruction of Redman Avenue. The project will include replacement of any older sewer laterals and older individual water services, installation of new concrete curbing, new concrete driveway aprons, and asphalt pavement.

We would like to remind each homeowner in the project area that they are still responsible for the water service and sewer lateral from their house to the newly installed house shut-off and cleanout; however, a construction project such as this one is always a good time to consider having your plumber (or other qualified contractor) replace the remaining older piping.

DeFalco and Bisconti, Inc of Atco, NJ will do the road work. The contractor advised us today that he will begin the job as early as July 22, unless there are weather delays. You should have received a notice yesterday from the contractor indicating that he would begin work.

Redman Avenue will be closed to local traffic only during the construction period. During the normal workday, starting after 7:00 a.m., there will be some impact on parking and traffic in the areas where concrete work is being done. We ask that when your side of the street is under concrete construction that you park of the roadway on the opposite side from your home or on the closest side street. While the actual road reconstruction work is in progress no traffic will be permitted during the day. The road will be accessible in the evenings. We would request that all residents park on the closest side street. The Police Department is aware of this situation and will relax enforcement of the overnight parking regulations where appropriate. If you have any concern, please call 784-9161 for overnight parking permission.

Your patience and understanding during this sometimes-messy process will be appreciated. This type of road work is intended to have the least impact possible. The end result for the long term, however, should be worth the short-term trouble construction work always causes.

If you have any questions or problems with the construction and/or access to the road, you should contact one of the following:

With the construction or access to the road – Remington & Vernick Engineers
795-9596 (Steve Fini) or 795-9595 (Charles Chelotti)

If you need to have a Police Officer come to the location – 429-3000
Day time police information – 429-4700 ext 250

Or you can contact my office. I can be reached by email at smccullough@haddonfield-nj.gov or by phone at 429-4700 ext 215.

Very truly yours,

Sharon McCullough
Borough Administrator
