

PSE&G

Public Service Electric and Gas Company 535 West Nicholson Road Audubon, New Jersey 08106

06-06-2008

Dear Resident:

As you may be aware of, the Borough of Haddonfield will be performing a water, sewer, and roadway restoration project on your street in the very near future. In conjunction with this work, PSE&G will also be performing a gas main and gas service replacement project. This work will result in minor interruption of gas service, for two brief periods of times, on different days, due to the work that will be required on your gas service inside and outside of your premises. This work will require access to your home along with access to the area your gas meter is located in. After these two brief interruptions, PSE&G employees turn on and relight your appliances. Please be aware that there will be no cost to you for any of the work associated with this project.

The first phase of work that PSE&G will be performing will be performed by our Appliance Service Department. This work is scheduled to begin on Wednesday, June 11th. To schedule an appointment for the first phase of work to be performed, inside of your home, please call either Chuck Mach at 856-573-2065 or Steve Harris at 856-573-2029 between 8:00am and 4:00pm.

Coinciding with the above mentioned inside work, a PSE&G street crew will be beginning to install the new gas main in the street in front of your home. After the new main has been installed your gas service will required to be reconnected to the new main. In addition, your gas service may also have to be replaced prior to the reconnection.

As we complete our work we will clean up any disturbed areas. We will replace any paving removed with a temporary top and will clean up any disturbed lawn areas. Notification will be made in regards to days your driveway may be blocked in order for you to make the necessary arrangements to move your vehicle. The approximate hours to be worked will be from 7:30am to 3:00pm.

Should you have any problems or questions concerning this phase of the work or any other general question, please contact Greg Chambers at (856) 573-2020.

Very truly yours,

Gregory T. Kyriacou
District Manager
Gas Distribution & Appliance Service

The power is in your hands.
