

*Tanner Street Roadway Reconstruction Project*  
*Project Update No. 4*  
*August 5, 2011*

**Work Completed the Week of August 1:**

Work began on the concrete curb and sidewalk at the new widened parking areas adjacent to the library, as well as at the Euclid Avenue intersection. Brickwork continued along Tanner, and excavation of the roadway began at the north end of the road. Areas on the southern half of the street were graded and cleaned up by the Contractor in anticipation of the Annual Sidewalk Sale.

*Curb Construction for Library Point Parking Areas*

*Curb Construction @ Southwest Corner of Euclid Avenue*

**Anticipated Work for the Week of August 8:**

Curb and sidewalk work at the widened parking areas and at the Euclid Avenue intersection will continue. Roadway excavation will be in full swing, including complete excavation between Stiles and Euclid Avenues. **TRAFFIC NOTE:** Tanner Street will be completely closed between Stiles Avenue and Euclid Avenue for the week. Through traffic will be detoured at Wilkins Avenue. Local traffic will have access through to Stiles Avenue.

*Roadway Excavation on Tanner Street @ Wilkins Avenue*
