Director of Public Works, Parks & Property

Commissioner Edward F. Borden, Jr.
Director of Public Affairs & Public Safety

Commissioner Neal P. Rochford
Director of Revenue & Finance

Borough of Haddonfield

Camden County, New Jersey

August 1, 2008

To: Properties abutting Westminster Avenue (Station Ave to Borough limits)

Re: Planned Utility Replacement Project

The Borough Commissioners have authorized utility replacement work for the full length of Westminster Avenue starting at Station Avenue to the Borough limits. This work will include replacement of the sanitary sewer main, and all manholes. The authorized work also includes the replacement of the old sewer laterals from the sewer main located in the street to approximately the property lines. It is estimated that ten (10) old galvanized water services will also be replaced. The final portion of the project is the installation of new stormwater piping with inlets and a sump pump collection system on portions of Westminster to Marquis Road.

Ivymont Construction Co. of Audubon, NJ will be the Borough's contractor for the utility work. They are expected to begin as early as August 4th. As always, the schedule is based upon good weather. The contractor will notify each homeowner prior to disrupting your current water or sewer service and it is expected that this inconvenience will only last a short time. If you have been noticed that your water has been shut off we suggest that you run your clothes washer through one cycle, without clothes, to ensure that any debris has been removed from the lines.

Roads will be closed to local traffic only during the construction period. During the normal workday, starting after 7:00 a.m., there will be some impact on parking and traffic while the work is being done. On street parking will not be allowed during the workday on the block(s) the contractor is working on. Cars must be off the road by 7:00 a.m. The Police Department is aware of this situation and will relax enforcement of the overnight parking regulations where appropriate. If you have any concern, please call 784-9161 for overnight parking permission. Trash and recycling will continue to be picked up on your normal day. The contractor; however, has requested that all trash and recycling be picked up no later than 7:30 am, which may be earlier than you are accustomed to.

Your patience and understanding during this sometimes messy process will be appreciated. The end result for the long term should be worth the short-term trouble construction work always causes. The Engineer will provide an overview of the construction project, process and project updates every two weeks, which will be

posted to the Borough website under the road program page located in the Public Works section of the website

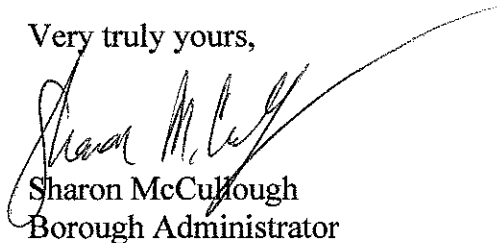

If you have any questions or problems with the construction and/or access to the road, you should contact one of the following:

With the construction or access to the road – Remington & Vernick Engineers
795-9596 (Steve Fini) steve_fini@rve.com or 795-9595 (Charles Chelotti)
charles_chelotti@rve.com

If you need to have a Police Officer come to the location – 429-3000
Day time police information – 429-4700 ext 250

Or you can contact my office. I can be reached by email at smccullough@haddonfield-nj.gov or by phone at 429-4700 ext 215.

Very truly yours,

Sharon McCullough
Borough Administrator
