At 21, Jacy Good was on top of the world. On the day she graduated from college, she and her family celebrated her achievement—until their joyous day was cut short by a young man on his cell phone. Her parents were killed and Jacy was only given a 10% chance of survival. Listen to her powerful message for every driver with a cell phone.

Jacy appeared on the Oprah Winfrey Show as an advocate to ban all cell phone use by drivers. Now you can see this amazing program!!!
